Elite Therapy Center has a large team of trained Speech-Language Pathologists (SLP) and Speech Therapy Assistants (SLPA) treating in all our clinic locations, daycares, preschools, and private school programs. Our speech therapy is operated by ASHA (American Speech-Language-Hearing Association) certified Speech-Language Pathologists and our primary objective is to provide quality, comprehensive speech-language therapy to the public.

we are

OPTIMISTIC

By setting the highest ethical standard for ourselves, associates, and clients, we are equipped to establish and uphold a reputation of clinical excellence with a personal touch.

We offer encouragement and celebrate in each client's success. Through the educating of parents, caregivers and teachers, we are able to increase the effectiveness and comprehensiveness of speech and language development. Professional development is always encouraged and provides an increasing quality in our staff and facility as well as our clients.
